

# THE NEXT GENERATION OF VACUUM PUMPS

## Pumping Innovation VPX7, VP87, VP67

The latest industry innovations have arrived from Fieldpiece.

- Best in class flow rates VPX7 10CFM, VP87 8 CFM, and VP67 6CFM that get the job done fast. All three pumps are lightweight & portable.
- RunQuick™ Oil Change System allows oil changes on the fly – no need to turn off the pump and you won't lose vacuum.
- Durable, sturdy pumps with a strong base and a small footprint that eliminate spills. Easy to use hose valve ports that keep hoses in line and easy to work around.
- Massive back-lit oil reservoir lets you clearly see the condition of the oil and the operation of the system and new removable window for cleaning.

## REVOLUTIONARY RUNQUICK™ OIL CHANGE SYSTEM

The new pumps optimize the revolutionary RunQuick™ Oil Management System with an extra bottle and a massive backlit, removable window. Good oil is a key ingredient of every evacuation. Clearly view the pump oil to see the condition of the oil and the system. Replace the oil in under 20 seconds, even while the pump is running, without losing vacuum. When it's time to change the oil, it's quick, clean and easy.
